> MORE...

It is like **MOV'IN120** with a **8 m clearance**.

Its **14 m of opening**, **9 m of depth** and its **additional 1.70 m of height**, make it a stage with ideal proportions.

MOV'IN120+ will provide your clients with the feeling of a very big volume.

Like its small sister, it stays the right compromise for 7.000 to 9000 people festivals and touring shows. It is lightweight, easy to manoeuvre and will meet all expectations you have from a professional stage.

> MORE ATTACHMENT POINTS FOR ALL YOUR IDEAS

With **MOV'IN120+**, over **14 tonnes** of technical material can be fastened to its structure; still using no less than **87 attachment points!** ... like its sister.

This flexibility will provide **unbound imagination** for your clients and make a difference compared to the competition.

100% reversible, it does not matter if it opens on the left-hand side or on the right-hand side of the semi-trailer.

> RELIABILITY, QUICKNESS, SAFETY

MOV'IN120+ is undoubtedly the perfect product to deploy for big events.

You will achieve **outstanding performances** with a **100% hydraulic** mounting controlled by **Siemens® touch-sensitive remote control**.

As for your time and logistics restrictions, its folded dimensions will make it one of the easiest to manoeuvre semi-trailers which can be installed on any ground.

With regular servicing, you will have a long-term guaranteed investment.

A few words on our industry

Entertainment-oriented trademark of GUILLET SAS (Ltd.), mobile stage manufacturer since 1994, our *savoir-faire* never ceased to expand, providing clients with ever more guarantees and follow-up. With our labels and certificates of excellence, our industry today can assure you that you have chosen the best partner for your shows by delivering a rigorous, high-quality product.

Our company is ISO 9001, ISO3834-2 and EN1090-certified. This enables us to obtain authorisations for our mobile stages. By incorporating all skills into our factories, we can guarantee a high-quality product, full traceability for all elements, and provide you with complete satisfaction. We have European authorisation.
