**FORCE  
EFFICIENCY  
& STYLE**

*Excellence  
within your  
grasp*

### > EFFICIENCY AND RELIABILITY!

**MOV'IN80** is undoubtedly the most versatile stage to start in the league of big events. Its size enables it to be included on sites which are inaccessible for the bigger stages such as **MOV'IN160**, **MOV'IN192** or **MOV'IN256**.

Robust, lightweight, easy to manoeuvre, it will meet all the requirements of your outdoor events.

Its surface area is in fact a best-seller for festivals of 6,000 to 8000 people.

### > MORE ATTACHMENT POINTS FOR ALL YOUR IDEAS

All our stages are designed to provide unrivalled load capacities under multiple configurations.

For **MOV'IN80**, over **14 tonnes** of technical material can be fastened to its structure using its **85 attachment points**.

Its **6m clearance** will provide great visibility for your clients.

100% "reversible" stage, you will not need to worry any longer about opening on the right side.

### > RELIABILITY, QUICKNESS

A reference in the stage industry in terms of **how quickly it is installed**, **MOV'IN80** is a symbol of safety and reliability.

100% hydraulic, its mounting is assisted by a set of sensors connected to a PLC. Its **Siemens® touch sensitive remote control** will group together all essential information thus making it **areal on-board dashboard**.

Needing minimum servicing **MOV'IN80** will be in the long run one of your best and profitable investments.

### A few words on our industry

Entertainment-oriented trademark of GUILLET SAS (Ltd.), mobile stage manufacturer since 1994, our *savoir-faire* never ceased to expand, providing clients with ever more guarantees and follow-up. With our labels and certificates of excellence, our industry today can assure you that you have chosen the best partner for your shows by delivering a rigorous, high-quality product.
